

Devoted to David Niswice

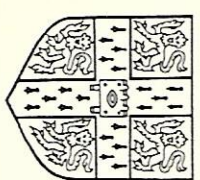

Thirtysecond Cambridge Ophthalmological Symposium

THE CORNEA

5th and 6th September, 2002

Chairman: Professor Anthony Bron

XXXII CAMBRIDGE OPHTHALMOLOGICAL SYMPOSIUM

2002

5th and 6th September

WEDNESDAY 4th SEPTEMBER
19.00 Wine Reception in the Fisher Foyer

THURSDAY 5th SEPTEMBER

08.55 Introduction
Martin Snead
Cambridge

09.00 Corneal structure and changes at the limbus
Linda Müller
Amsterdam

09.30 Corneal transparency, scarring and oedema
Keith Meek
Cardiff

10.00 The biology of the corneal endothelium in health and disease
William Bourne
Rochester

10.30 Cellular proliferation and differentiation at the ocular surface
Robert Lavker
Philadelphia

11.00 COFFEE

11.45 Conjunctival associated lymphoid tumours
Erich Knop
Hannover

12.15 Tears in health and disease
John Tiffany
Oxford

12.45 LUNCH

St. John's College, Cambridge

Academic Organiser: Mr M Snead

14.00 Stem cell differentiation and the effects of deficiency
Harminda Dura
Nottingham

14.30 The long term results of limbal stem cell transplantation
Shigeru Kinoshita
Kyoto

15.00 Immune defence at the ocular surface
John Gottsch
Baltimore

15.30 The development of neurotropic keratitis
Stefano Bonini
Rome

16.00 TEA
Linda Hazlett
Detroit

16.45 Mechanisms of corneal infection
Terry O'Brien
Ballinore

17.15 The management of bacterial infections of the cornea

17.45 Close of Session

FRIDAY 6th SEPTEMBER

09.00 The pathogenesis and treatment of stromal herpes simplex keratitis
Andrew Tullio
Manchester

09.30 Fungal infections of the cornea
Philip Thomas
Tiruchirapa

10.00 Acanthamoeba keratitis and its treatment
David Seal
San Francisco

10.30 Corneal toxicology
John Dart
London

11.00 COFFEE

11.45 Recent advances in contact lenses for corneal disease
Martin Rubinstein
Nottingham

12.15 Inherited corneal disorders
Anthony Bron/
Helen Stewart
Oxford

12.45 LUNCH

14.00 Prospects for gene therapy in corneal disease
Frank Larkin
London

14.30 Management of the high risk graft
Paul Meyer
Cambridge

15.00 Corneal electrolysis for recurrence of stromal dystrophies
Yukihiko Mashima
Tokyo

15.30 Corneal transplant in high risk cases
Douglas Coster
Adelaide

16.00 TEA
Mark Terry
Portland

16.30 Deep lamellar endothelial keratoplasty
Wayne Strelein
Boston

17.00 New thoughts on the immunology of corneal transplantation

17.30 Close of Meeting
15 minutes discussion time is allocated for each presentation
