

Thirtysixth Cambridge Ophthalmological Symposium

## Childhood Visual Impairment

7th and 8th September, 2006

Chairman: Professor Tony Moore

### XXXVI CAMBRIDGE OPHTHALMOLOGICAL SYMPOSIUM

2006

7th and 8th September

#### WEDNESDAY 6th SEPTEMBER

19.00 Wine Reception in the Fisher Foyer

#### THURSDAY 7th SEPTEMBER

08.55 Introduction

Martin Snead  
Cambridge

09.00 Childhood blindness – a UK perspective

Jugnoo Rahi  
London

9.30 Retinal vascular development

Marcus Frutiger  
London

10.00 Molecular mechanisms of disordered  
vascular development

Carmel Toomes/  
Louise Downey  
Leeds

10.30 COFFEE

11.15 Retinopathy of prematurity: current  
management and future therapies

Graham Quinn  
Philadelphia

11.45 Ophthalmological problems associated with  
pre term births

Alistair Fielder  
London

12.15 Mechanism of brain injury in the neonate

John Wyatt  
London

12.45 LUNCH

St. John's College, Cambridge

Academic Organiser: Mr M Sneed

13.45 Chiasmal development  
Glen Jeffery  
London

14.15 Visual pathway development  
Christine Holt  
Cambridge

14.45 Developmental abnormalities of the optic nerve and chiasm  
David Taylor  
London

15.15 TEA

16.00 Hypopigmentation disorders and the eye  
Richard King  
Minnesota

16.30 Brain injury and the eye  
Creig Hoyt  
San Francisco

17.00 Developmental disorders of the globe  
Nicky Ragge  
Oxford

17.30 Close of Session

20.00 CONFERENCE DINNER IN ST. JOHN'S COLLEGE

**FRIDAY 8th SEPTEMBER**

09.00 Genetics of childhood cataract  
*Pohlan Blake*  
Elise Heon  
Toronto *Wardlaw*

09.30 Management of childhood cataract  
Chris Lloyd  
Manchester

10.00 Molecular mechanisms of anterior segment dysgenesis  
Jane Sowden  
London

10.30 COFFEE

11.15 Management of congenital glaucoma  
Pong Klhaw  
London

11.45 Management of congenital corneal opacities  
Ken Nischal  
London

12.15 Childhood retinal detachment  
Martin Sneed  
Cambridge

12.45 LUNCH

14.00 The challenge of preventing childhood blindness  
Clare Gilbert  
London

14.30 Childhood retinal dystrophies – towards the development of novel therapies  
Tony Moore  
London

15.00 Gene therapy for childhood blindness  
Robin Ali  
London

15.30 TEA

16.00 What are the prospects for stem cell therapy?  
Charles French-Constant  
Cambridge

16.30 Stem cell therapy and the retina  
Robert McLaren  
London

17.00 Holistic management of the visually impaired child  
Alison Salt  
London

17.30 Close of Meeting

*15 minutes discussion time is allocated for each presentation*

*We are grateful to the following companies for their support:*

Alcon  
Advanced Medical Optics  
Bausch & Lomb  
Digital Healthcare  
Liechtnica

Novartis  
Pfizer Ophthalmics  
Uno Medical  
Wisepress
