

XXXI CAMBRIDGE
OPHTHALMOLOGICAL SYMPOSIUM

2001

4th and 5th September

Thirtyfirst Cambridge Ophthalmological Symposium

RETINAL DETACHMENT

4th and 5th September, 2001

Chairman: Professor Steve Ryan

MONDAY 3rd SEPTEMBER

19.00 Wine Reception in the Fisher Foyer

TUESDAY 4th SEPTEMBER

08.55 Introduction

Steve Ryan
Los Angeles

09.00 In vitro and in vivo imaging of the vitreous

Jerry Sebag
Huntingdon Beach

09.30 Structural macromolecules of the vitreous

Richard Mayne
Birmingham, Alabama

10.00 Supramolecular organisation

Paul Bishop
Manchester

10.30 COFFEE

11.15 The posterior hyaloid membrane

Martin Sneed
Cambridge

11.45 Pathology of RRD

Richard Green
Baltimore

12.15 Animal models of RRD

Steve Fisher / Geoff Lewis
Santa Barbara

12.45 LUNCH

St. John's College, Cambridge

Academic Organiser: Mr A T Moore

14.15 Pathology of ERM and SRM
Paul Hiscott
Liverpool

14.45 Molecular genetics of RRD
Allan Richards
Cambridge

15.15 Finding the retinal hole: in vivo vital staining
Tom Williamson
London

15.45 TEA

16.30 PVR
David Charteris
London

17.00 Enzyme assisted vitrectomy
Michael Trese
Royal Oak

17.30 Close of Session

19.45 CONFERENCE DINNER IN ST JOHN'S COLLEGE

12.15 Current status of PFC's in V-R Surgery
Stanley Chang
New York

12.45 LUNCH

14.15 Retinal detachment in a third world setting
David Yorston
London

14.45 Future perspectives in primary RD repair (1)
Harvey Linnoff
New York

15.15 Future perspectives in primary RD repair (2)
John Scott
Cambridge

15.45 Closing Remarks

16.00 TEA

15 minutes discussion time is allocated for each presentation

WEDNESDAY 5th SEPTEMBER

09.00 Visual recovery after RD repair
William Ross
Vancouver

09.30 Management of the complications of senile retinoschisis and it's relationship to RD
Norman Byer
Torrance

10.00 Novel growth factors in PVR
Steve Ryan
Los Angeles

10.30 COFFEE

11.15 Pneumatic retinopexy
George Hilton
Oakland

11.45 Simple detachments: identifying the high risk case
Zdenek Gregor
London
