

Eleventh Cambridge Ophthalmological Symposium
UVEITIS

10th & 11th SEPTEMBER, 1981 Chairman: Professor Arthur Silverstein

WEDNESDAY, 9th SEPTEMBER

6.30 p.m. Sherry Reception in the School of Pythagoras

THURSDAY, 10th SEPTEMBER

9.00 a.m. Introduction

9.05 a.m. The pathophysiology of uveitis

9.25 a.m. Discussion

9.35 a.m. The epidemiology and clinical syndromes in uveitis

9.55 a.m. Discussion

10.05 a.m. The initiation of inflammation in uveitis

10.25 a.m. Discussion

10.35 a.m. Perpetuation of inflammation in uveitis

10.55 a.m. Discussion

11.05 a.m. COFFEE

11.45 a.m. Hereditary and genetic factors in uveitis

12.05 p.m. Discussion

12.15 p.m. The role of viruses in uveitis

12.35 p.m. Discussion

12.55 p.m. LUNCH

2.00 p.m. Bacterial and protozoal uveitis

2.20 p.m. Discussion

2.30 p.m. The lens in uveitis

2.50 p.m. Discussion

3.00 p.m. Glaucoma in uveitis

3.20 p.m. Discussion

3.30 p.m. Uveitis in leprosy

3.50 p.m. Discussion

4.00 p.m. TEA

4.30 p.m. Experimental and clinical research aspects of the ocular histoplasmosis syndrome

4.50 p.m. Discussion

5.00 p.m. Immunological studies on Behçet's and Vogt-Koyanagi-Harada's Diseases

5.20 p.m. Discussion

7.30 p.m. SPECIAL DINNER IN ST. JOHN'S COLLEGE HALL - Dinner Jacket

The Dinner will be followed by chamber music in the New Music Room, First Court, provided by The Symposium Music Ensemble.

Smith, Los Angeles

Ohno, Sapporo

FRIDAY, 11th SEPTEMBER

- 9.00 a.m. Immuno pathological significance of leucocyte/ endothelial interactions
 9.20 a.m. Discussion
 9.30 a.m. The role of immune complexes in uveitis
 9.50 a.m. Discussion
 10.00 a.m. Autoantibodies and immune complexes in retinal vasculitis
 10.20 a.m. Discussion
 10.30 a.m. Autoallergic retino-uveitis
 10.50 a.m. Discussion
 11.00 a.m. COFFEE
 11.30 a.m. The uveitis associated with scleritis
 11.50 a.m. Discussion
 12.00 p.m. The aetiology of sympathetic ophthalmitis
 12.20 p.m. Discussion
 12.30 p.m. Pathology of pars planitis
 12.50 p.m. Discussion
 1.00 p.m. LUNCH
 2.15 p.m. Uveitis in connective tissue disorders
 2.35 p.m. Discussion
 2.55 p.m. The value of fluorescein angiography in uveitis
 3.15 p.m. Discussion
 3.25 p.m. The aetiology of heterochromic cycloplegia in adults
 3.45 p.m. Discussion
 3.55 p.m. TEA
 4.10 p.m. The care of children with uveitis
 4.30 p.m. Discussion
 4.40 p.m. The treatment of uveitis (Role of immunosuppressives in the care of uveitis)
 5.00 p.m. Discussion
